PCT Applications

Patent Title	Disclosure No	File Date	Pat Ser No	Licensee	Assignee
Improved Methods for Protein Refolding	1997.8068H	10/31/2001	PCT application		
Method for Modulation of Cell Phenotype	1998.9075H	10/12/2000	PCT/US00/28316	Jointly owned with VA & NJH	
Porous Membrane and Thin Film Structure Control Device Employing an Electric Field	1999.10009B	6/18/2001	PCT/US01/19394		
Compositions and Methods for Regulating Metabolism in Plants	1999.10031C	3/30/2001	PCT/US01/10236		
Compositions and methods for treating wounds using cyanoacrylate wound sealant and silver	1999.10040C	3/30/2001	PCT/US01/10245		
Stable (Fixed) Forms of Viral Capsid Proteins, and Viral Capsid Protein Fusions, Preferable	1999.10042H	6/11/2001	PCT/US01/18701	Jointly owned with Georgetown	
Thermal dissociation...	1999.10058B	5/8/2001	PCT/US01/15160	Jointly owned with NREL	
Selective toxin expression in angiogenic endothelial cells	1999.10059H	11/3/2000	PCT/US00/30471		
Progesterone Receptor-Regulated Gene Expression and Methods Related Thereto	1999.10091H	6/28/2001	PCT/US01/20612		
Altered HOX and WNT7a Expression in Human Lung Cancer	2001.014H	10/11/2001	PCT/US01/31960		
Inhibitors of Viral Infection	2001.021B	5/22/2001	PCT/US01/16674	Jointly owned with Stanford; optioned to Lilly	
Rapid Conversion of Metal-Containing Compounds to Form Metal or Metal-Oxides	1999.10045B	2/22/2001	PCT/US01/06032	OMG Americas	
Compositions and Methods for Controlled-Release Delivery and Increased Potency of	1999.10030B	11/1/2001	PCT/US00/30424

DECLARATION OF
ANNALISSA PHILBIN

EXPRESS MAIL: EV368036430US

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

I, Annalissa Philbin, Patent Administrator for The Regents of the University of Colorado, have first-hand knowledge of the facts set forth in paragraphs 1-7 below.

1. Richard Schmidt, the sole inventor of the above-identified patent application and a former employee of The University of Colorado has, to date, failed or refused to sign and return to my office a Declaration under 37 CFR 1.63 related to the above-identified patent application, after a diligent effort was made to provide Richard Schmidt with the application documents and to obtain his signature.

2. Dr. Schmidt's last known residential address is 12136 W. 75th Lane, Arvada, Colorado 80005. I believe that this is the correct, current residential address for Dr. Schmidt, based on a signature by "Schmidt" on a Federal Express package sent to this address as discussed in paragraph 3 below. Also, the University of Colorado Technology Transfer Office routinely sends Dr. Schmidt royalty checks to this address and to date, such checks have been accepted and cashed by Dr. Schmidt.

3. On January 12, 2004, I sent a letter to Dr. Schmidt at his last known residential address in paragraph 2 above by Federal Express overnight mail (copy attached). The letter enclosed the following documents for the above-identified patent application: a complete copy of the above-identified patent specification; an Inventors' Declaration under 37 CFR 1.63; and an Assignment of the invention to the Regents of the University of Colorado. The letter asked him to read, sign and return the Declaration and Assignment to my office. Also enclosed is a copy of the Federal Express tracking receipt, and copies of the Federal Express Detailed Results of delivery and the Proof of Delivery, showing that the package was delivered on January 13, 2004 at 11:33 am, and showing under "Signature Proof of Delivery" that a "Schmidt" signed the Federal Express paperwork. However, to date, the Declaration and Assignment documents have not been returned to my office as requested.

4. On February 17, 2004, as marked in my handwriting on the copy of the January 12, 2004 letter, I left a voice mail for Richard Schmidt at his telephone number of record, 303-456-8632 to follow-up regarding the signature documents. Dr. Schmidt did not return this telephone call.

5. On April 28, 2004, as marked in my handwriting on the copy of the January 12, 2004 letter, I left a voice mail for Richard Schmidt at his telephone number of record, 303-456-8632 to follow-up regarding the signature documents. Dr. Schmidt did not return this telephone call.

6. Based on the facts presented above, I conclude that Richard Schmidt refuses to sign the Declaration under 37 CFR 1.63 for the above-identified application.

7. I hereby declare that all statements made herein of my own are true and that all statements made on information and belief are believed to be true; and further that the statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the subject application or any patent issuing therefrom.

Date: 19 May 2004

Re: U.S. CIP Patent Application No. 10/655,889 filed September 4, 2003, entitled "Use Of Neurotoxin Therapy For Treatment Of Urological-Neurological Disorders Associated With Prostate Cancer"

Dear Dr. Schmidt:

Enclosed is a copy of the above-referenced U.S. Continuation-in-Part patent application that was filed on September 4, 2003, at the request of the licensee. This application has been modified from the original application to include additional background information and some prophetic experiments, but from a substantive standpoint, contains all of the disclosure from the original application.

Also enclosed are a Declaration and an Assignment document from Angela Dallas Sebor. Please read these documents and sign and date them in blue ink where indicated. Your signature on the Assignment must be notarized. If you find an error in spelling, address or citizenship in either document, please cross through the incorrect information, insert the correct information, and initial your change.

For your information, we are also in the process of preparing similar additional applications directed to the particular embodiments of urinary retention and neurogenic bladder dysfunction (again at the request of the licensee). If you would like to assist with the review of the applications before we file them, please let me know, as we would be happy to have your input.

We appreciate your cooperation with the signing of these documents. Please return the executed Declaration and Assignment to the University of Colorado Technology Transfer Office at your earliest convenience, noting that these documents should be filed with the Patent Office before February 1, 2004. If you have any questions, or if you anticipate a delay in executing either of these documents, please let me know right away.

Very truly yours,

Annalissa Philbin
Patent Administrator

Please Note

*The courtesy rate shown here may be different than the actual charges for your shipment. Differences may occur based on actual weight, dimensions, and other factors. Consult the applicable [FedEx Service Guide](#) or the FedEx Rate Sheets for details on how shipping charges are calculated.

FedEx will not be responsible for any claim in excess of \$100 per package, whether the result of loss, damage, delay, non-delivery, misdelivery, or misinformation, unless you declare a higher value, pay an additional charge, document your actual loss and file a timely claim.

Limitations found in the current FedEx Service Guide apply. Your right to recover from FedEx for any loss, including intrinsic value of the package, loss of sales, income interest, profit, attorney's fees, costs, and other forms of damage whether direct, incidental, consequential, or

special is limited to the greater of \$100 or the authorized declared value. Recovery cannot exceed actual documented loss. Maximum for

items of extraordinary value is \$500, e.g., jewelry, precious metals, negotiable instruments and other items listed in our Service Guide. Written

claims must be filed within strict time limits; Consult the applicable FedEx Service Guide for details.
